

ECIMT/COLORADO TEAM 3 (COT3) – February 09

Congratulations to Roy Rudisill, LSC3 and Barry Schaefer, OPS3 on achieving type 3 state certification status

SPECIAL PROJECTS

The **annual open application period** will begin April 1st and run until April 24th after which the command and general staff leads along with the team advisor board will make new team members selections and any current team member position changes or roster adjustments. Again we will only be entertaining applications for positions we have openings for. We will also be looking for 3 to 4 individuals who are **CERT** qualified to attach to the team and be on the roster for two specific areas of team support. (getting our team gear to us and volunteer management if the need arises)

You will now find a twitter feed (the free messaging utility for staying connected in real-time) on the home page of the teams website. For more information on twitter and how it works go to www.twitter.com

A **new web roster** has been posted. One adjustment is you will now find your permanent team “O” numbers there.
