The **annual team open application period** will begin April 1st and run to April 24th. After which the command and general staff leads along with the team advisor board will make new team members selections. Current team member position changes or roster adjustments will also be made at this time. We are specifically looking for 1 or 2 individuals to attach to the team and be on the roster for general team support (getting our soon to be acquired gear to the team where ever we are deployed). These individuals will be assigned to logistics.
