RESULTS OF THE FEBRUARY 26, 2008 TEAM MEETING

Upcoming Training (internal/external) It was decided that the team will not be participating in the Jeffco multi-team exercise, however if you would like to participate individually please contact Todd Manns for additional information

Roster Position Vacancies: The open application period will be from April 1 to May 1, 2008 for the 2009 fiscal year roster which begins July 1. (This roster will be sent as a separate e-mail attachment once completed). There is a new category on the roster called the hotlist. Individuals on this list receive team correspondence information and are invited to our team training activities. Generally these individuals are an additional pool of talent that the team may request/order on an incident based on the objectives. Included in part two of this list, are individuals from the San Luis Valley All Hazards region of Colorado. This region does not have an IMT but may need assistance in the future.

The Individual Equipment List , which was discussed at the team meeting will follow as a separate e-mail attachment once completed. Upon receipt please fill it out and return it to Todd Manns via fax (303) 362-7293 by May 1st. We are working out financial arrangements so the items you select from the list will be free for team members.

The SOG and Team Mobilization Guide revision 2009 is making its way thru the General Staff for comments or corrections and will then go to command. This is an absolute work in progress and will take time. Our goal is to have it ratified by July 1 (the first day of the state fiscal year).

.....

Team certification will be sent to the State of Colorado on or before May 15. We fully expect to receive certification based on individual Position Task Book qualifications and the Command and General Staff positions filled.
