

SITUATION REPORT SEPTEMBER 2007

Congratulations to ECIMT members

Steve Blois, Chris Sorensen, Roy Rudisill

On completing L449 ICS TtT

- The team received an e-mail from Captain Simms of the Colorado National Guard CERF-P thanking us for the opportunity to observe our training on October 3rd, 2007.
- The website for the team will be up and accessible by Nov. 1, 2007. The url is www.ecimt.info. In the future the website will have a secure area just for team members.
- The roster as it stands has been submitted to the Colorado Division of Fire Safety (CDFS) in advance of the team application. Please find an updated team roster attached to this email.
- The Eastern Colorado IMT now has nine L-449 instructors and will be advising CDFS in a formal letter.
- Command is finalizing research on the border counties of New Mexico, Oklahoma, Kansas, Nebraska and Wyoming that touch the Northeast, Southeast and South all-hazard regions of Colorado for future potential availability requests. We will be putting out an information sheet on the various ways to call out the team
- The team will be requesting that the Colorado Information Analysis Center put any team member with a current Peace Officer Standards Training commission through the process of receiving a "secret clearance" for those instances where the team may be involved in sensitive operations. This will be done if the members home unit has no objection. Additionally, based on past credentials and current team position members L. Helmerick and R. Freed will be added to the "secret clearance" list.
- The following roster members need to fill out the attached emergency contact form and fax it back to 303-362-7293. (Blois, Eveatt, James, Simons, Scott, C. Riley, Sorensen)

TRAINING

It is strongly encouraged for those team members who have not completed their task books to attend The Command and General Type III workshop in Sterling, Colorado at the Colorado Wildland Fire and Incident Management Academy. Many team member will be in attendance. This course will be a great team building and training opportunity. See attached brochure or go to www.cowildfireacademy.com
